

Citations

To add citations, we need to:

- Create a BIB file that holds the metadata for our references.
- Save the BIB file to the same folder as our RMD file
- Include the bibliography: key in the YAML of our RMD document

```
---  
title: "Hello World"  
author: "Andrew Zieffler"  
date: "January 22, 2019"  
output:  
  html_document:  
    toc: true  
    toc_float: true  
bibliography: my_bibliography.bib  
---
```

.bib Files

A *.bib* file is a plain-text file that contains a BibTeX database. The database is a list of references and their metadata. Reference managers (e.g., Papers, Zotero, Mendeley) can produce BibTeX entries.

```
@book{agresti,  
  author = {Alan Agresti},  
  title = {Categorical Data Analysis},  
  publisher={Wiley},  
  year={2002},  
  edition={2nd},  
  address={New York},  
}  
  
@article{algina,  
  author = {J. Algina and H. J. Keselman and R. D. Penfield},  
  title = {An Alternative to {C}ohen's Standardized Mean Difference Effect  
          Size: A Robust Parameter and Confidence Interval in the Two  
          Independent Groups Case},  
  journal={Psychological Methods},  
  year={2005},  
  volume={10},  
  number={3},  
  pages={317--328},  
}
```
