

Use APA Formatted Citations and References

By default, the Chicago style (author-date format) is used for citations and references. To use another style, you will need to:

- Download the appropriate CSL style file. (Find many at <https://zotero.org/styles>)
- Place the file in the same folder as the RMD file.
- Specify the name of the **CSL style file** in the `cs1:` YAML field.

```
---  
title: "Hello World"  
author: "Andrew Zieffler"  
date: "January 22, 2019"  
output:  
  html_document:  
    toc: true  
    toc_float: true  
bibliography: my_bibliography.bib  
csl: apa-single-spaced.csl  
---
```

References

Algina, J., Keselman, H. J., & Penfield, R. D. (2005). An alternative to cohen's standardized mean difference effect size: A robust parameter and confidence interval in the two independent groups case. *Psychological Methods*, 10(3), 317–328.

Unfortunately the references will not indent properly without some additional user-added syntax in the CSL style file.
